DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claim 8 is provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-8 of copending Application No. 10/546,455 in view of Exner et al (DE 19953000 A1) for the reasons of record.

Art Unit: 1732

This is a provisional obviousness-type double patenting rejection.

3. Claim 8 is rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-9 of U.S. Patent No. 7,172,724 B2 (issued from Application No. 10/304,963) in view of Exner et al (DE 19953000 A1) for the reasons of record.

4. Claim 8 is rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 2-15 of U.S. Patent No. 6,657,155 B2 in view of Exner et al (DE 19953000 A1) for the reasons of record.

Allowable Subject Matter

5. Claims 1, 4-7 and 9-13 are allowable over the prior art references presently of record.

Response to Arguments

6. Applicant's arguments filed on 23 April 2007 have been fully considered but they are not persuasive.

7. While the Abe references do not explicitly claim that the powder is an inorganic material, the Abe references do claim a powder material, which encompasses an inorganic material.

8. Regarding Exner et al, irradiation in a "zig-zag" pattern meets the limitation of irradiating along an outline.

9. Regarding removal of the sintered portion, instant claim 8 recites (at step (e)) "removing an excess portion from a surface of the sintered block" which does not require that all of the excess sintered portion be removed.

10. Regarding Application No. 10/546,455, claim 1 does not require an "abnormally sintered part". Furthermore, this "abnormally sintered part" is removed and thus, is an excess portion (of the part).

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
